

## Testimonials

"The Nurse gave me the facts and took away my fear."

-J.H., Durham, NC

"It was a tremendous relief to me and my family to have an experienced nurse as our advisor and support."

-M.B., Boston, MA

"I have used 'Everybody Needs a Nurse' to guide me through a very challenging new medical procedure. Diane researched this procedure thoroughly, coached me on the questions to ask my physicians, regularly monitored my side effects, as well as my mental state, and served as a patient, loving presence when I most needed a calm supportive listener. While my family was helpful, it was a tremendous relief to me, and my family, to have someone with Diane's experience to be our advisor and support throughout the preparation for the procedure and the recovery. She was able to discuss our fears rationally and caringly so that we all felt better prepared. 'Everybody Needs a Nurse' was 100% invaluable."

-L.S., Cleveland, OH

"When I went to the doctor's appointment, I felt that I had an extra pair of 'ears' to hear what the doctor was saying and help me put it all into perspective."

-C.S., Chapel Hill, NC

&ldquo;When I went to my doctor&rsquo;s appointment with Diane, I felt that I had an extra pair of &ldquo;ears&rdquo; that could hear what the doctor was saying and after the appointment she helped me to put what the doctor said into perspective as it related to my situation. Her ability to really listen and give a balanced and clear picture of what is happening is invaluable.&rdquo;

-J.H.

&ldquo;She helped make my recovery much smoother by telling me what to expect in each phase of my recovery.&rdquo;

-S.E.
